

LED Solar Motion Wall Light 6.8W

Model: HL-1209(black) HL-1210(white)

Harbour Lighting's solar wall light is a great solution to provide lighting to an area with no operational costs by using free power from the sun. The solar lights are suitable for perimeter lighting, external doorways, driveways, walkways or areas you can't easily access AC power

Product Features

- Inbuilt PIR sensor
- Four Operating modes
 - 1st, Dimmed brightness until movement
 - 2nd, Zero brightness until movement
 - 3rd, Constant light throughout the night
 - 4th, Constant light for approx 30mins
- Available in white or black
- Automatic night time operation
- Waterproof (IP65)

SPECIFICATION

	HL-1209	HL-1210
Part Number	HL-1209	HL-1210
Product Colour	Black	White
Colour	Cool White 6000K	
Light Source	Epistar 2835 SMD LED	
Beam Angle	120°	
Lumen (lm) - Full	1000lm	
Power Consumption	6.8W	
Charging time	7 hours (from 0 - 100%)	
Housing	Polycarbonate	
Solar Battery	3.2V 4500mAh	
Operation Temperature	-25°C~+60°C	
Dimension (mm)	(L) 270 with bracket 413 x (W) 98 x (H) 46	
Solar Panel	5V 3.2W	
Warranty	3 Year Replacement
