

LED 4W Round Solar Bollard

Model: HL-1303

LED Solar Bollard Light is a simple solution to provide lighting to an area with no operational costs by using power free from the sun. The solar lights are suitable for applications such as perimeter lighting, external doorways, driveways or areas you can't easily access AC power.

Product Features

- Colour Adjustable (3000K) Warm White – (5000K) Cool White
- Inbuilt PIR motion sensor optional.
- Die casting aluminium, salt spray & corrosion tested.
- This product has a back-up charge.
- If conditions remain overcast for 4 consecutive days the solar light will remain operational over this period
- Automatic night time operation
- Money saver, zero electricity consumption, zero cost of trenching & zero cabling

SPECIFICATION

Part Number	HL-1303
Colour Temperature	(3000K) Warm White – (5000K) Cool White
Lumen (lm)	<500lm
Power (W)	4
Light Source	LED CREE 44 pieces of 0.09W
Weight (Kg)	10
Lifetime	Up to 12 years
Colour	Green
Solar Battery	2 x 4.5 AH 6.4V Lithium Battery
Charging time	6 Hours per day
Redundancy	~ 4 Days
Housing	Die casting aluminium
Operation Temperature	-15°C~+65°C
Light Dimension (mm)	360 diameter x 1000 (H)
Protection Rating	IP65
Warranty	3 years
